NOW OPEN: Internship Prep Course

The Moodle **Internship Prep Course** is open!

Successfully completing this Prep Course by or before February 15th (FIRM DEADLINE) is required in order to be *eligible to participate* in an internship in Summer 2026. You do not have to have an internship offer at this point.

The self-paced course takes fewer than 2 hours total to finish and can be done over the breaks.

Frequently Asked Questions:

- **Do I have to complete the Prep Course again if I did it last year?**
YES. Important information is updated and changed each year.
- **If I find a cool internship opportunity after February 15th, but I didn't do the Prep Course, can I still do the internship?**
NO (not if you want academic credit and funding for the internship). This deadline is FIRM. Even if you don't know for sure if you want to do an internship this summer, complete the Prep Course anyway in order to be eligible, just in case.
- **Why is the Prep Course required?**
The internship process includes several steps and important information we don't want you to miss. The Prep Course covers all the basic requirements, strategies and resources for finding/identifying your ideal internship, preparing to apply & networking, accepting an offer, completing & submitting the internship proposal, housing, funding, and internship participation - and, you can revisit these resources at anytime throughout the process, *in addition to* scheduling individual meetings with our staff when needed.
- **How do I get access to the Prep Course?**
