**IN THIS MAJOR YOU’LL LEARN TO:**

- Understand the psychological and societal structures and mechanisms affecting human health behavior
- Understand that health and disease do not depend uniquely on biological mechanisms, but include societal and culture influences as well
- Understand that psychological and behavioral factors affect human health, and interact with surrounding economic and environmental conditions
- Understand the role of behavioral theory, research, and clinical practice in the promotion and maintenance of physical health and wellbeing

*And so much more!* Faculty and advisors are here to help you get the most out of your program and how it may apply to different career paths
