

## **Denison Internship Program Summer Housing Policy**

If your internship is located locally in the Granville or Newark areas, you can request summer housing on campus as part of the Denison Internship Program. Under some circumstances, we consider Columbus area internships. If the Knowlton Center approves your experience for on campus housing, you will also be required to complete all housing requirements, including summer housing application. You are responsible for paying the fees assessed for summer housing. **Remote internships are ineligible for on-campus summer housing.**

\*\*\*Please pay close attention to the dates of Summer Housing. These do not always align with internship dates and are currently not able to be adjusted. Before applying for Summer Housing, please ensure you can work with your internship provider on dates if need be. If not, please plan on finding alternative housing arrangements.

To request summer housing, please register your internship and provide the requested information.
