STEM

MASTER OF
SCIENCE

Business Analytics

The Master of Science in Business Analytics (MSBA) is a 30 credit program that can be done full-time in one year or on a part-time basis. This program is for students interested in learning the latest techniques for analyzing large data sets to gain business insights. It includes 27 credits of coursework over the fall and spring semester and a field research or consulting project worth 3 credits.

The MSBA program is suitable for recent undergraduate students, individuals changing careers and for those looking to upgrade their skill set to include the theory and practice of business analytics.

The program will provide students with the skillset to harness large datasets to more efficiently design effective business policies. Students learn techniques derived from various fields and gain practical skills on managing data that can be instantly applied and are useful across a wide range of business domains such as:

- Finance
- Marketing
- Accounting
- Retail
- Supply Chain
- Human Resources
- Management

REQUIREMENTS

Students entering the program are expected to have previous experience in quantitative analysis, Excel, and programming. Students who do not have previous experience in these areas will need to take the following admission deficiency courses:

- Quantitative Analysis for Business
- Advanced Excel with Visual Basic for Applications
- Advanced Programming

Decisions on the need for the above courses will be based on individual transcript review done during the admissions process or examination prior to coming to campus. Students will need to take applicable courses the summer before the start of the degree program.

HOW TO APPLY

Submit the following:

- Online application with \$75 fee
- Official Transcript(s)
- Three Letters of Recommendation
- Statement of Purpose
- Official GRE or GMAT Scores*

**The GRE or GMAT has been waived through Fall 2023.*

MASTER OF
BUSINESS ADMINISTRATION

Full-Time MBA

If you recently earned your bachelor's degree and want to enhance your knowledge before entering the workplace; or if you have been working and want to make a career change, the Full-Time MBA program at the University at Albany is the right program for you.

In your first year, you learn fundamental concepts in finance, accounting, marketing, operations, human resource management, organizational behavior, and information technology. You will also travel abroad and participate in an international consulting project.

During your second year, you work closely with research faculty and regional business leaders as you develop leading edge knowledge and practical skills in your concentration area through hands-on experiences in real business settings.

Concentration options include cybersecurity, entrepreneurship, finance, human resource information systems, information systems and business analysis, and marketing.

PROGRAM

You can gain practical experience in your area of interest by completing an internship with a local, national, or global organization. The School of Business enjoys strong relationships with employers in and beyond the Capital Region, and many graduate students complete an internship as part of their program of study.

HOW TO APPLY

Submit the following:

- Online application with \$75 fee
- Official Transcript(s)
- Three Letters of Recommendation
- Resume
- Statement of Goals
- Official GMAT Scores

**The GMAT is being waived through Fall 2024.*

MASTER OF
SCIENCE IN

Professional Accountancy

The master's in professional accountancy at UAlbany is designed for students with an undergraduate degree in accounting who want to get licensed as a certified public accountant in New York State.

When you enroll in this full-time program, you'll be eligible to take the Uniform CPA Exam in just one year. If you majored in accounting, you also have the option to earn this graduate accounting degree part-time.

The curriculum builds on your existing knowledge of accounting practice. Course topics include generally accepted accounting principles (GAAP), investment valuation methods, data mining and analysis, accounting software and technologies, commercial fraud, auditing, internal controls, budgeting, and cost-profit analysis.

REQUIREMENTS

Admission to the program requires a NYSED-approved undergraduate degree in accounting from an accredited U.S. university, or its equivalent (including 24 accounting credits and 36 business-elective credits). The application deadline for International Students is March 1.

HOW TO APPLY

Submit the following:

- Online application with \$75 fee
- Official Transcript(s)
- Three Letters of Recommendation
- Official GMAT Test Scores

Digital Forensics and Cybersecurity

Launch your career as an information technology security analyst, cyber defense manager or risk manager in the private or public sector.

UAlbany's master's in digital forensics and cybersecurity will teach you how to rapidly detect and deter malicious network intruders and use special forensics tools to gather and analyze digital evidence.

The program is especially attractive to recent graduates with degrees in emergency preparedness, homeland security, cybersecurity, applied engineering, mathematics, and computer science. If you're an early- or mid-career working professional wanting to advance your career, you can finish the program part-time by registering for evening classes.

Choose from one of five concentration options: Cybersecurity; Cyber Operations; Digital Forensics; Risk, Policy & Compliance; or Health Security & Privacy.

PROGRAM

This program includes 30-33 credits of coursework over two semesters followed by a 3-6-credit summer internship or thesis in which you solve real-world problems.

You can complete this master's degree through full-time or part-time study. Evening classes are available to all students enrolled in the program.

HOW TO APPLY

Submit the following:

- Online application with \$75 fee
- Official Transcript(s)
- Three Letters of Recommendation
- Resume
- Personal Statement
- Official GMAT or GRE Scores*
