Environments 2 (Prince 2)  
Practice Test**

*These practice exams support industry-recognized credentials that validate a student's technical skills and expertise in this competitive and growing job market. With a number of exam-like practice tests for students to choose from, the Kaplan Credegree program helps students prepare for certification in project management, finance, technology, and others.*

*Interested students can register on Handshake and will be emailed the link to select the exam prep option they want to complete.*
