Open Positions

Intelligent Automation, Inc.

Air Traffic Management
- Aeronautical Engineer - Simulation and Modeling
- Software Engineer - Modeling and Simulation (Aviation)

Advanced Computing
- Applied Data Scientist/Engineer
- DevOps Engineer
- Full Lifecycle Agile Software Engineer

Signals, Analysis & Controls
- Computational - Quantitative Social Scientist
- Lead Machine Learning Engineer
- Machine Learning Engineer
- Natural Language Processing Research Scientist
- Software Engineer/Developer – Transportation
- Technical Program Manager - AI, ML and Big Data
- Technical Project Manager - Transportation
- Transportation Research Scientist/Engineer
- Dynamics & Control Engineer

Robotics & Electromechanical Systems
- Electro-Optics Senior Design Engineer
- Full Stack Software Engineer – Applied Research
- **Intern - Robotics Group (Rockville, MD location)**
- Research Scientist - Computer Vision & Machine Learning
- Research Scientist - Robotics/Dynamic Sys/Control
- Software Engineer - Robotics

Networks & Security
- Machine Learning and Big Data Researcher
- Mobile App Developer
- Network Engineer (Senior)
- Research Scientist/Engineer – Cyber Security and Networking
- Research Scientist/Engineer – Machine Learning and Big Data Analytics
- RF Communications and Networks Engineer
- Software Engineer - C++ and Linux
- Software Engineer - Networks and Cyber Security
- Web Services Software Engineer
- **Intern - Software Development (Rome, NY location)**

Sensing & Communications
- Electrical Engineer - Embedded Systems
- Electrical Engineer - FPGA Firmware-Hardware
- Research Scientist - Radar
- Electrical Engineer

Intelligent Automation, Inc. (IAI) is a technology innovation company headquartered in Rockville, MD. We specialize in providing advanced technology solutions and R&D services to federal agencies and corporations throughout the United States and internationally.
