

Dress Code

As a student employee, your dress should reflect the type of work you are doing on campus such as office, outdoor or lab environments to name a few. Although we realize you are a student first, you are an extension of Fresno State and therefore, should dress appropriately for the workplace. This means not wearing something that is too revealing. For example:

- No tops that are sheer, too low or cropped
- No pants that are too tight; no rips or holes
- No skirts that are too short
- Shorts are never appropriate
- Flip flops are never appropriate and are a tripping hazard

Your department may have clothing guidelines depending on the type of work performed.

When in doubt ask your Supervisor! Also, please refer to your Student Employee Handbook page 8. Don't forget, we have a Student Clothing Closet on campus. It is located in the Career Development Center in the Thomas Building, Room 103 and IT'S FREE TO ALL STUDENTS.
