

# Your Story Board Framework

Your Story Board Framework can help guide your story's visualization and navigation, what you want to share and how you will share it. For a more visual learner, it allows you to take the steps from foundation to execution. Start with Your Story Basics.

## Your Story Basics

Basics give you the foundation of what your story should include.

Establish  
Timeline

30-second?  
90-second?  
60-second?

Identify Key  
Stories /  
Themes

What key questions  
have you answered?  
What stories will you  
highlight?

Determine  
Level of  
Detail

Vary the amount of  
detail by the time and  
the narrative.

Sketch / Map  
It Out

Whiteboard your story.  
Where should your  
story go? Use the  
Worksheet to guide.

Craft the  
Narrative

Take yourself outside  
of your story. What  
narrative are you  
creating?

## Your Story Execution

Execution requires a plan, a design and knowing your audience.

Identify Your  
Audience

Is it a recruiter? Hiring  
manager? Peer? What  
do THEY want to hear?

Practice and  
Refine

Find your audience and  
practice! Want to  
watch yourself first?  
Use Interview Stream.
