

YALE SOM EMPLOYERS WITH VISA SPONSORSHIP

The Visa Sponsorship Company List is a snapshot of employers who have sponsored Yale SOM student employment (MBA, MAM, GBS, AM*) in the graduating classes of 2020-2022. As you think about Your Search, the list can act as a guide in researching opportunities in the US.

A few notes to consider when reviewing the list:

- A list of past sponsoring companies is a tool, but it doesn't release a student from exploring the networking process with the employers on the list.
- The list shows that there are many larger, brand name organizations who have sponsored Yale SOM Students, however there are also a number of smaller/medium sized employers who have sponsored that students can uncover through research and conversation.
- Employers on this list, in addition to those who are not, may not be open to your candidacy in the United States upon Graduation, but transfers once you are hired and established in the company may be another consideration.
- In some cases, employers sponsored International students broadly, while others sponsored international students on a case-by-case basis.
- Don't assume that an employer who sponsored international students from 2020-2022 will continue to do so this year. Company policies change often.
- Just because an employer on the list sponsors, doesn't make it the right place for you. Understanding the people and the culture of the organization are incredibly important.
- Schedule time with a CDO Coach to address these employer opportunities and other resources for support. This isn't the ONLY resource.
