# Plant Science CAREER ROADMAP

### **PROGRAM OVERVIEW**

Plant scientists sustain and improve our world as they work in careers connected to foods, fibers, fuels, pharmaceuticals, managed landscapes, and native ecosystems. Students study biology, genetics and biotechnology, ecology, physiology, pests and diseases, and sustainable agriculture. They develop an interdisciplinary perspective on plant science and its applications for managing plants in human and natural systems.

# LEARN ABOUT YOURSELF & CAREER OPTIONS

#### **General Skills & Knowledge**

Work in this industry requires knowledge in environmental and biological sciences, keen observation of change and patterns, critical thinking and problem-solving skills, the ability to prioritize and organize projects, and enthusiasm to learn new techniques and ideas.

#### Explore career options with these resources:

- <u>What can I do with a Plant Science major?</u> Plant Sciences, Plant Biology, and more!
- Seed Your Future Careers
- Plant Science Major Career Opportunities
- <u>Architecture, Manufacturing, Natural</u> <u>Resources, and Agriculture Pathway</u> <u>Community</u>

#### **Sample Job Titles:**

- Restoration Ecologist
- Environmental Consultant
- Sustainable Crop Producer
- Organic Inspector and Certifier
- Plant Breeder
- Crop Geneticist
- Greenhouse and Farm Coordinator
- Public Gardens Designer
- Sports Turf Manager
- Agricultural Extension Agent

Above average growth expected for E<u>nvironmental Restoration</u> <u>Planners, Precision Agriculture</u> <u>Technicians</u>, and <u>Soil and Plant</u> <u>Scientists.</u>

## **BUILD EXPERIENCE**

#### Sample UF Organizations:

Environmental Horticulture Club, Plant Science Council, UF Native Plant Nursery, Minorities in Agriculture, Natural Resources, and Related Sciences, Field & Fork Campus Food Program, Natural Resources Diversity Initiative, Ethnoecology Society, Entomology Club, Organic and Sustainable Agriculture Club

For more information, check out GatorConnect

#### Engage with Faculty Mentors

Meet with your faculty mentor at least once a semester for guidance and support.

# PREPARE FOR YOUR NEXT STEPS

### **Professional Associations**

American Society of Agronomy, American Society for Horticultural Science, AmericanHort, American Society of Plant Biologists, Crop Science Society of America, Ecological Society of America, Florida Nursery, Growers, and Landscape Association, International Society for Plant Pathology, National Association for Plant Breeders, Society for Ecological Restoration

#### Undergraduate Research

 Read up on what faculty are working on and talk with them about potential opportunities to get involved in research

#### Search for Jobs & Internships

<u>UF Gator CareerLink</u>, <u>AgCareers</u>, <u>AgHires</u>, <u>American Phytopathological Society</u>, <u>American Public</u> <u>Gardens Associations</u>, <u>Environmental Education</u>, <u>FL Dept. of Ag and Consumer Services</u>, <u>Science</u> <u>Society</u>, <u>Green Jobs</u>, L<u>andscape Industry Jobs</u>, <u>Seed Your Future Internship List</u>, <u>Plantae</u>, <u>Society for</u> <u>Conservation Biology</u>, <u>USA Jobs</u>

#### Sample Employers Recruiting at UF

FL Dept. of Environmental Protection Montana Conservation Corps Yellowstone Landscape US Dept. of Agriculture

CIENCE

Costa Farms Land O'Lakes Inc.

#### **Career Planning**

Check out the Career Connections Center <u>Career Hub</u> for resources related to r<u>esumes</u>, <u>cover letters</u>, job and internship <u>search strategies</u>, preparing for <u>interviews</u>, or applying to <u>graduate school</u>.
