PROFESSIONAL EXPERIENCE

Instructional Design Intern

January 202X – Present

University of Florida, Center for Teaching Excellence | Gainesville, FL

- Partner with five faculty members to design and update Canvas course materials, improving course organization and supporting achievement of measurable learning outcomes.
- Create 12 interactive learning modules, instructional guides, and multimedia resources using Articulate Rise 360, Camtasia, and Canva, increasing learner engagement and improving content accessibility.
- Apply ADDIE, Universal Design for Learning (UDL), and accessibility best practices to develop inclusive learning experiences that meet the needs of diverse learners.

Educational Technology Assistant

August 202X – January 202X

University of Florida, College of Education | Gainesville, FL

- Supported faculty and students with the implementation of Canvas and other instructional technologies, assisting more than 50 users each semester.
 - Created step-by-step tutorials and digital job aids using Canva and Microsoft Office, reducing common technology support questions.
 - Troubleshoot learning management system issues and collaborated with instructional technology staff to improve the online learning experience.
-

PROJECTS & INVOLVEMENT

Senior Capstone Project– Educational Technology

May 202X – August 202X

University of Florida | Gainesville, FL

- Designed a 30-minute professional development course for K–12 educators using the ADDIE framework, supporting four measurable learning objectives and improving learner navigation.
- Built six interactive learning activities and knowledge checks in Articulate Rise 360, resulting in a 90% assessment completion rate during pilot testing.
- Produced instructional videos, graphics, and downloadable job aids that increased learner engagement and received positive usability feedback from 12 peer reviewers.

E-Learning Project Developer

May 202X – August 202X

University of Florida | Course Project

- Designed a self-paced online orientation module for first-year college students by applying instructional design principles to improve the learner experience.
- Developed five interactive learning activities and formative assessments in Articulate Rise 360, reinforcing key concepts throughout the module.
- Created multimedia learning assets, including instructional videos, graphics, and infographics, that support learner engagement and knowledge retention.
