

Division of Occupational Therapy

Volunteer Site List

This list is provided to prospective applicants to assist with identifying potential facilities for earning volunteer or observation hours. It is the prospective applicant's responsibility to contact facilities and arrange volunteer or observation times.

This is not intended to be a comprehensive list of sites in the Puget Sound region, but a guide in a prospective applicant's search.

Website <http://www.valleymed.org/childrenstherapy/>

Therapy type(s) Pediatrics

Last update from site January 2017

Notes We offer an immersive career exploration experience in our outpatient, multidisciplinary neurodevelopmental center (no inpatient exposure). Minimum commitment of 80-100 hours, which is a combination of volunteer duties and direct therapy shadowing. Students successfully completing this experience have a solid grounding in pediatric occupational therapy, and spent time developing relationships with therapy staff. There is an extensive application packet required which includes a background check and immunization records; this is provided upon request. It is strongly recommended that students begin this process well in advance of application due dates. Interested students should visit our website for an overview of our program.
