

All Huskies Graduate Career-Ready

This means...

- Every Husky, regardless of personal or academic background...
- Graduates with the skills, experiences, relationships, academic knowledge, and career management tools to...
- Find and maintain employment that leads to personal fulfillment, financial wellness, positive contributions to workplaces and communities, and continued engagement with the UW family.

The C&IC's Unique Role Towards that Vision:

- Elevating the importance of career-readiness throughout campus, embedding career everywhere, and equipping campus partners.
- Purposefully serving students who have fewer career resources and/or more systemic barriers to employment.
- Creating diverse opportunities for students to explore careers and to build the skills, experiences, relationships, and career management tools employers expect of new college graduates.
- Tracking and showcasing Husky career outcomes – where new graduates land, how they got there, and how UW contributed to their journey.

This Requires that We:

- Partner widely with stakeholders on- and off-campus... through education, consultation, and collaboration.
- Engage students early, often, and with intention.
- Seek ways to scale our efforts, maximize our resources, and work efficiently.
