Summer 1 - MG 110 Leadership Success Factors: Enhancing your Professionalism & Presence (3 cr)
As you enter the workforce, understanding professionalism will help you to navigate successfully in your career. This course is designed to help you to know your value and worth now and in the future. The course modules are developed to increase your knowledge of human resource management best practices and gain confidence in knowing your negotiation position. You will gain awareness, skills, and proficiency in areas that can help to make a difference in your career.

Summer 1 - ENT 110 Entrepreneurship & Innovative Responses to the Coronavirus (3 cr)
This course introduces students to how entrepreneurs and organizations are responding to the coronavirus. In this most unprecedented moment, we will examine how entrepreneurs and organizations are coming up with creative and innovative solutions to combat the virus’ effect on individuals, communities and our economy. The course helps students develop an understanding of entrepreneurial and innovative thinking and how they can use this perspective to solve important problems.

Summer 1 - MG 112 A Cause & A Name: Building and Managing a Nonprofit (3 cr)
This course connects theory and practice by examining a variety of management strategies utilized in running nonprofit organizations. Course readings, discussions and videos will cover strategic planning, writing and fulfilling mission statements, facilitating governance, designing effective fundraising tactics, evaluating programs, financial management, and legal responsibilities. The course also covers the formation of the nonprofit sector and its differences from the public and for-profit sectors. Students are strongly encouraged to undertake a volunteer experience with a nonprofit during the semester.

Summer 1 - CIS 350 Advanced Excel Programming (AC 350).3 Credits.
This course utilizes advanced topics in Excel to solve a range of complex business problems. Topics include: spreadsheet design, the use of complex formulas, functions, list and data management, macros and Visual Basic for Applications

Summer 2 - MK 110 Marketing My Fashion Brand on Social Media and Social Selling Apps
The purpose of this course is to introduce students to the basics of marketing their Fashion brand with a heavy emphasis on social media and social selling sites or Apps. The course will cover important topics such as marketing your clothing brand on social media sites such as Facebook, Instagram, Pinterest, Snap Chat, and Tik Tok. Working with social media influencers and brand ambassadors to market your clothing brand. Selling on Social Selling sites and Apps such as Poshmark, Mercari, Etsy, Shopify, Tradesy and Amazon. Students will also participate in an experiential project designed to allow them to create and sell their brand on a social selling App.

Summer 2 - MG130 Art of Persuasion and Negotiation (3 cr.)
We negotiate every day with friends, family members, merchants, co-workers, potential and current employers about matters big and small like household chores, work schedules, salaries and purchases like cars and homes. However, many people do not feel comfortable negotiating and shy away from starting a negotiation even if it means losing an opportunity to better their lives. In this interactive course, you will: evaluate your personal strengths and weaknesses in negotiations, recognize commonly used manipulative negotiation tactics used by difficult negotiators, learn strategies to prepare for negotiations and to ethically influence and persuade people to move in your direction, and learn to effectively negotiate creative deals that are satisfying for all involved parties.

**Summer 2 - MG 120 Take Control of Your Life with Six Sigma (3 Cr)**
This course offers basic concepts of Six Sigma which teaches process and product improvement principals via minimizing variations and wastes. The methodology is often implemented in manufacturing and service companies – but can be applied in your personal life as well. With the help of this course, you will be able to explain the six sigma philosophy, use DMAIC (Define, Measure, Analyze, Improve and Control), define and mitigate variation in processes, and use root cause and Pareto analysis to take the control of a process.

**Summer 2 - STR 210: ARTIFICIAL INTELLIGENCE IN THE BUSINESS WORLD: DISRUPTIONS, TRENDS, THE VALUE OF HUMANS (3 cr)**
This course delves into Artificial Intelligence (AI) and how it is affecting the business world today and in the future. Students explore disruptions caused by AI, identify and discover new trends in AI, and investigate what it means to be human in a rapidly changing environment. Students identify potential issues, define the value of humans, evaluate various models of decision-making (human alone, AI alone, vs. human and AI together), and anticipate how they will strategically use this knowledge in their future.

**Summer 2 – ENT 210 (UC) Introduction to Entrepreneurial Thinking. 3 Credits.**
Enterprise is much more than the process of starting a company. Entrepreneurship is a habit of mind and an attitude. It is a skill set applicable to pursuing innovation in organizations, personal and career contexts and an approach to life built around innovative thinking, calculated daring, and proactive behavior. This course introduces students to the entrepreneurial mindset, the context of entrepreneurship, and skills necessary to use the entrepreneurial mindset in the workplace, in starting a new venture, in one's personal life.

**Summer 2 - MG 105 (UC) Organizational Management.3 Credits.**
This course provides an introduction to the principles of management, covering concepts such as organizations, leadership, and supply chain management. This course prepares students to better understand the management and operations of organizations by integrating management concepts with the student's professional and academic interests. For non-business majors/minors only

**Summer 2 - IB 105 (UC) International Business Environment.3 Credits.**
This course provides an introduction to the worldwide business environment in which we live and work. The course reviews the cultural, social, political, geographical and economic factors that shape economic institutions and activities in the U.S. and other countries. Global business interactions also are studied. This course is geared primarily toward non-business majors.

**Summer 2 - SB 185 (UC) Personal Finance.3 Credits.**
This course provides an overview of personal wealth building strategies and explores techniques for setting personal financial goals. Personal budgeting, investments and debt management also are investigated.
