

At Wentworth Institute of Technology Center for Cooperative Education and Career Development, we are the Institute's resource for all topics of co-op and careers. The Institute is a leader in cooperative education and has offered it to students since 1975. Every undergraduate day student must complete two co-ops to graduate from Wentworth, which is managed by the Center for Cooperative Education and Career Development.

As a resource to our employers, we are providing average starting co-op salaries of our students and annual salaries of our most recent graduates:
