

The Career Compass

YOU GRADUATED, NOW WHAT?

Once you get your degree, you need a job. Searching for a job can be difficult. However, we have a six step process that can make it easier.

- **Update** your resume and have it reviewed at the Wilson Jones Career Center. Schedule an appointment on Navigate!
- **Search** for a job on Handshake, LinkedIn, recruiting websites, company websites, professional organization websites, and social media.
- **Turn on** job alerts for recruiting websites so you get a notification when potential jobs are posted.
- **Apply** to job postings that you are interested in. Remember to **keep track** of the applications you put in.
- **Check** your email and other forms of communication after you submit applications. **Respond** promptly and appropriately to any correspondence from potential employers.
- **Follow up** with recruiters or human resources professionals at the company. Send an email or request to connect on LinkedIn and send a message with your invitation.
