

PREPARE STUDENTS FOR SUCCESS.

interview prep enables students to demonstrate abilities and provides a method of building the skills employees need most to achieve their goals and improve organizational performance.

## BUILD SOFT SKILLS

- Help job seekers practice essential skills like communication
- Enable students to pitch themselves to employers

## PRACTICE ANYTIME AND ANYWHERE

- Job seekers can take mock interviews anytime and anywhere
- Offer students the flexibility they need to succeed

## LAND DREAM JOBS

- Over 40 percent of graduating college students take jobs that don't require a degree, and taking such a job can have a serious impact on their careers
- Give students the knowledge and confidence they need to excel at interviews

# Help students ACHIEVE THEIR GOALS

- Create personalized mock interviews
- Use a database of thousands of pre-recorded questions
- Record custom questions for job seekers and students
- Students can conduct self-assessments on their interviews
- Ability to request feedback from mentors and coaches

"The biggest win for us is showing faculty how they can use interviewstream to prepare their students... So if faculty realize that this is an opportunity to help students reflect on some of the experiences they have and really to sell themselves, it's going to be much more effective."

Suzanne Scott-Trammell, Executive Director, Career & Professional Development
