Biomedical Informatics and Data Science (BIDS) Summer Research Internship

Gain real-world experience in biomedical informatics and data science with field-leading faculty mentors at #WashUMed
An opportunity to grow your research portfolio.

BIDS empowers trainees to use biomedical informatics and data science tools and technologies, distinguishing themselves from peers applying to advanced degree programs and industry positions.
What is the BIDS internship?

BIDS is a 12-week, paid summer internship for students with diverse backgrounds to explore biomedical informatics.

Under the guidance of faculty mentors and research scientists, BIDS interns focus on supporting and elevating biomedical informatics through translational research and practice.
Our faculty have a wide breadth of research interests.

Machine learning

Clinical care optimization

Population health
Why choose BIDS?

• Housed under world-renowned Washington University School of Medicine, ranked #6 nationally for research

• Work closely with field-leading faculty mentors

• More than just research: applied workshops, weekly seminars, and engagement with members of the cohort provides a well-rounded learning experience
Dates & deadlines

BIDS comprises two weeks of virtual preparatory learning followed by 10 weeks of in-person engagement in St. Louis (subject to change based on the current public health situation).

- Application deadline: Feb. 15, 2021
- Virtual pre-program: May 17 – 28, 2021
- In-person program start date: June 1, 2021
- Program end date: Aug. 6, 2021
